

BiB e.V. (registered association)

The association for the purpose of looking after and integrating disabled children and young people, in short BiB e.V., was founded in 1988 by dedicated parents and helpers.

We support children and young people with disabilities, their parents, siblings and other relatives. The integration and self-determined participation of children and young people with disabilities are very important to us.

The association is recognised as charitable and is a member in the “Paritätischen Wohlfahrtsverband” (Federation of Welfare Associations)

Our offers

Consultation

We are happy to give advice if you should have any questions regarding your child's disability. Together with you we work out what you need. Then we can jointly look for possible support offers, clear possibilities of financing and will help you to fill out applications.

The consultation provided by BiB. e.V. is offered confidentially and is free of charge.

Relieving the burden on families

To support you in your family life we arrange volunteer helpers to look after your disabled child on an hourly basis. They will have been trained by us and will support you so that you can spend free time with your child and do activities that are fun. Together with you the helpers coordinate the times they themselves are available.

BiB e.V. takes care of paying the helpers. You will receive an invoice from us at the end of the month.

You can finance this offer via the care insurance fund. We are glad to provide you with further information in a personal meeting.

Leisure offers

We organise many different leisure offers during the year; from holiday activities and weekend trips up to daily excursions and many other alternating leisure activities. We will be glad to clarify the financing with you by telephone. Our current offers can be found under the heading “Latest News“ on www.bib-ev.org.

Offers for siblings

We organise special offers for the siblings of children, young people and adults with disabilities. Here they can get to know other siblings and discover that they are not alone in their situation. They have fun together taking part in our activities. We do joint activities, excursions and leisure activities with overnight stays. Our current offers can be found under the heading "Latest News" on www.bib-ev.org.

School support assistant

It is possible that your child can attend school only with one school support assistant. In this case we are in a position to help you.

We employ our school support assistants, we have trained them and they are instructed and supported by our professionals. We organise the school support assistants in the field of mainstream as well as special needs schools.

The school support assistants meet the needs of your child. They support your child at school with different kinds of assistance. They will help, for example, in dressing and undressing your child, helping them to orientate themselves at school or with motivation and concentration. In the lessons they support your child, e.g. when reading and writing as well when working through tasks. They help in dealing with lesson materials and will also assume light nursing tasks.

The guiding principle is to support your child as much as necessary and as little as possible so that learnt independence is not forgotten and independence achieved can be further extended.

We will gladly advise you regarding questions on making applications and financing.

School social work at the Mathilde-Eller-School

We are there for all pupils from the support centre, their parents and relatives as well as the teachers at the school.

The children and young people are supported in their school career and we promote their social and personal skills. We organise and coordinate class and school projects and organise group offers with the pupils.

Moreover, we see ourselves as a contact point for parents regarding all questions to do with difficulties at school and educational problems as well as to do with individual support services and leisure activities and provide help in making applications.

School social work at the school for sick children

The school social work is there for pupils, their parents and teachers at the school for sick children. It is important for us to maintain the educational opportunities and the school career during a stay in hospital.

We see ourselves as process monitors during school attendance at the school for sick children and offer consultation in this framework.

When a child leaves the clinic in order to attend his/her own school, we take care of the process of reintegration. In the meantime the school social work takes over coordination and consultation tasks in this process and makes structured offers that are geared towards individual requirements.

Moreover, we offer projects or excursions.
